

Synthoil Race Tech GT1 10W-60

Description:

Synthoil Race Tech GT1 SAE 10W-60 is a modern, fully synthetic, high-performance engine oil formulated for use in four-stroke engines under extreme load. The combination of synthetic base oils and modern additive technology satisfies the requirements of the latest engine designs.

PROPERTIES:

Synthetic Technology,

Optimum lubrication under extreme conditions. With the wide-range viscosity 10 W-60 HD. High thermal stability. Optimizes engine performance. Immediate lubrication during cold starting and significantly improved wear protection. Extremely low oil consumption and evaporation loss. Outstanding engine cleanliness.

Fine tuned to the demands of the latest generation power units (multi-valve and turbocharged).

Application:

For gas and diesel engines with and without turbocharging. Especially suitable for extreme engine requirements and racing.

Specifications / Approvals:

SAE 10 W-60
API SL/CF

Preferred by BMW "M" series owners.

INSTRUCTIONS:

The operating instructions of the vehicle and engine manufacturers must be followed.

Synthoil Race Tech GT1 10 W-60

5 Liter Jug Part no. LM2024

Case Qty 4 Jugs.

1 liter Part no. LM 2023

Case Qty 6
